

The true type font Waffenstadt.ttf includes some logos, proof marks and pistol icons. In the following list are the presently existing “letters” listed. As I used a German keyboard, the keys may vary on an English keyboard.

To install the font got to “START”, select “Settings”, System and “Fonts”: Open the “Fonts” folder and select “install new font” from the menu bar. Browse through your computer and open the folder where you saved the “Waffenstadt.ttf” file.
