MARIO ZAVATTARO..... As many of you probably know, Mario died the first of June, 1964. He was one of the nicest persons I have ever known, all of the Luger collectors (and other gun collectors) had great respect for this man; he was always very friendly, honest, and one of the few really "nice" people in this collecting business. Over the years, Mario had gathered one of the best collections of Lugers in this Country; many of them were stolen and have not yet been recovered; however, Mario did have a few fine Lugers left and many of them are on this list. I am selling them, without any "take" on my part, for Mrs. Zavattaro; ALL of the money for his guns will be sent to her. It is unfortunate that we had to lose Mario, he will be greatly missed by those who knew him. It is also very unfortunate that all of you Luger Collectors did not know him personally; however, I strongly suggest that you talk to those who did know him as he did try to create something in the LUGER COLLECTORS ASSOCIATION OF AMERICA. Several of us would still like to see this end of Mario's dream come "true"; for those of you who are interested, I suggest you contact: Carl F. Wilson, 6320 South Harvard Ave., Chicago 21, Illinois. (Carl Wilson is secretary of this Association and I personally think it would be a tribute to Mario if we got this thing in "high-gear".

Have noticed that just recently the Luger Collectors have had a bunch of fast-talking "promoters" who are selling guns; FAKED variations are turning up all over the Country and many of these guys who are faking guns are known to several collectors. However, many collectors are not aware of this situation and are spending a lot of good money for bogus guns; be sure you KNOW the party you are buying the gun(s) from (some of these jokers will write a full 2-page letter to sell one gun). Watch this sort of "flowery-salesmanship"; someone is wanting in your pocketbook. Insist on a MONEY BACK GUARANTEE; if the seller refuses to give one, let him keep the gun; if you have any doubts about the gun being "right", take it to some advanced collector in your area and ask his opinion. (Just hope that this advanced collector is not in "cahoots" with the seller).

QUALITY IS LIKE BUYING OATS: IF YOU WANT NICE CLEAN OATS, YOU MUST PAY A FAIR PRICE; HOWEVER, IF YOU CAN BE SATISFIED WITH OATS THAT HAVE ALREADY BEEN THROUGH THE HORSE...THAT COMES A LITTLE CHEAPER.
